

**Department of the Interior**  
**FY 2014 Service Contract Inventory Designated Special Interest Functions**

The table below depicts the special interest functions with obligated dollars that the Department of the Interior will analyze in FY 2015 as its FY 2014 Service Contract Inventory.

<b>Department of the Interior</b> <b>FY 2014 Service Contract Inventory—Special Interest Functions</b>		
<b>PSC</b>	<b>Description of Function</b>	<b>Dollar Obligations</b>
D302	IT and Telecom Systems Development	\$32,025,497
D399	IT and Telecom-Other IT and Telecommunications	\$188,197,663
R408	Support-Professional: Program Management/Support	\$79,654,597
R425	Support-Professional: Engineering/Technical	\$72,826,275
R497	Support-Professional: Personal Services	\$1,029,696
R499	Support-Management: Other	\$187,517,528
R707	Support-Management: Contract/Procurement/Acquisition	\$11,818,872

The Department of the Interior achieved significant spend reduction in four special interest functions designated for FY 2013. These special interest functions are listed below:

- D307, IT and Telecom-IT Strategy and Architecture
- D310, IT and Telecom-Cyber Security/Data Backup
- R414, Systems Engineering Services
- R421, Technical Assistance

The spend reductions for these special interest functions are illustrated in the table below:

PSC	Spend Reduction %	FY 14 Obligations	FY 13 Obligations
D307	13.74%	\$27,677,944	\$32,086,043
D310	27.29%	\$6,531,914	\$8,983,453
R414	63.93%	\$1,546,440	\$4,287,252
R421	49.25%	\$1,341,701	\$2,644,473

Based on the progress achieved in the reduction of spending in these areas, the Department of the Interior has made a determination to remove these four functional areas for analysis in FY 2015. However, a significant increase in spending was observed concerning R425, Support-Professional: Engineering/Technical. Spending increased in this functional area to \$72,826,275 in FY 2014 from \$44,317,535 in FY 2013. Therefore, functional area R425 was included in the designated special interest functions for analysis in FY 2015. The Department of the Interior will continue its collaborative approach and work with agency leadership across organization lines to identify opportunities to eliminate redundant contracts at the bureau level and consolidate requirements agency-wide to reduce spending and achieve savings.
